## GOOD WORK

Done Daily in Barre—Many Citizens Tell  
of It.

Nearly every reader has heard of  
Doan's Kidney Pills. Their good work  
in Barre still continues, and our citi-  
zens are constantly adding endorsement  
by public testimony. No better proof  
of merit can be had than the experience  
of friends and neighbors. Read this  
case:

Mrs. Eliza Mitchell, formerly of 42 Ma-  
ple Ave., says: "For some time I was  
troubled with kidney complaint. There  
was trouble with the kidney secretions  
which were irregular and too frequent  
especially at night when my rest was  
greatly disturbed. I also had terrible  
pains just over my hips and these would  
sometimes extend up through my shoulder-  
blades. I also had dizzy spells and every-  
thing I caught made me suffer most ac-  
tually. My son had used Doan's Kid-  
ney Pills with great benefit so I decided  
to try them. I got a box at E. A. Drown's  
drug store and had taken but  
a few doses when I experienced relief,  
and the use of two boxes improved my  
condition in every way. The pain in  
my back lessened, and the secretions  
were regulated."

For sale by all dealers. Price 50  
cents. Foster-Milburne Co., Buffalo,  
New York, sole agents for the United  
States. Remember the name—Doan's—  
and take no other.

## RECENT INVENTIONS.

Miss Anna M. Town of Utica, N. Y.  
has invented an arrangement of elec-  
tric lights of practical service to those  
who cannot hear the doorbell or tele-  
phone bell. When either bell rings a  
brilliant light flashes through the  
rooms, a difference in color distinguish-  
ing the two bells.

After seventeen years striving tire-  
lessly to invent a mechanical device  
which experts told him was impossible  
Joseph Petrillo of Boston has suc-  
ceeded in inventing the long sought for  
"one wheel quarter hour strike" for  
clocks. For a century skilled workmen  
from all over the world have been at  
work trying to accomplish this strike.

## TALES OF CITIES.

New York is seldom thought of as a  
manufacturing city, but it has 60,842  
manufacturing establishments.

Kansas City consumes 125 carloads of  
peanuts every year, but the streets  
and sidewalks give evidence that the  
city makes no effort to hide its shells.

Administrative London contains 118  
square miles and a population of 4,500-  
600. Greater London contains an area  
of 653 square miles, with a population  
of 6,581,372. Postal London has no fixed  
boundary, the limits being extended  
or reduced at the pleasure of the post-  
master general.

**Horse Manure.**  
Horse manure is very dry and is,  
therefore, difficult to thoroughly mix  
with litter. It is a hot manure, under-  
going fermentation rapidly and gener-  
ating a high heat on account of its  
loose texture. It is likely to lose am-  
monia even more rapidly than sheep  
manure.

**Our First Fire Engine.**  
The first fire engine used in this coun-  
try was brought from England to New  
York in 1731.

work.

**Cured of Lung Trouble.**  
"It is now eleven years since I had a  
narrow escape from consumption,"  
writes C. O. Floyd, a leading business  
man of Keosauqua, S. C. "I had run down  
in weight to 135 pounds, and coughing  
was constant, both by day and by night.  
Finally I began taking Dr. King's New  
Discovery, and continued this for about  
six months, when my cough and lung  
trouble were entirely gone and I was re-  
stored to my normal weight, 170 pounds."  
Thousands of persons are healed every  
year. Guaranteed at the Red Cross phar-  
macy. 50c and \$1.00. Trial bottle free.

**The Proper Food For Poultry.**  
Opinions differ widely as to what is  
the proper grain ration for poultry. Al-  
most every poultryman has his own  
ideas on the subject; but, no matter  
what is used, it is universally conceded  
that some meat or animal food should  
be given in connection therewith. What  
C. S. Carr of Bogue, Mass., thinks on  
the subject is expressed in the follow-  
ing letter from him: "I think 'Page's  
Perfected Poultry Food' ought to be  
kept by the hens all of the time in the  
winter with other foods, such as crack-  
ed corn, oats and wheat."

Any one sending his address on a  
postcard to C. S. Page, Hyde Park,  
Vt., and mentioning this paper, will re-  
ceive by mail, free, postpaid, a sample  
package of "Page's Perfected Poultry  
Food."

of the week from Danville, where he  
had been for three weeks doing dental  
work.

H. D. Corse and W. W. Perkins of  
Brookfield, were among those from out-  
of town who were here on business on  
Thursday.

Mrs. Willis Lougee and Mrs. Norman  
B. Davenport, who reside on the East  
hill, are among the recent victims of  
the grippe.

Thermometers in the village registered  
on Thursday morning from 34 to 43 de-  
grees below zero, this being the coldest  
morning of the season.

of the week.

The supreme court has just handed  
down the decision in the case of George  
W. Cleveland of this town against the  
town of Washington, which was an af-  
firmation of the verdict rendered at the  
June term of court in 1905, which was  
for the plaintiff to recover approximately  
\$500 and costs.

## CHURCH AND CLERGY.

Boston church, England, is an at-  
tached in stone. It has 7 doors, 62 win-  
dows, 12 pillars and 385 steps to the  
tower.

The oldest church building now  
standing in New York city is St. Paul's  
chapel, the cornerstone of which was  
laid in 1764.

Rev. E. D. Eaton, pastor of the North  
Congregational church of St. Johns-  
bury, Vt., has decided to accept an in-  
vitation to return to Beloit college,  
Wisconsin, to resume the presidency of  
that institution.

Nearly all of the money needed to  
complete the Cathedral of St. John the  
Divine, New York city, which is to be  
one of the largest Episcopal cathedrals  
in this country, is in hand. It is hoped  
that services above ground can be be-  
gun in the next two years.

## If You Were Offered

An Active Liver for a sluggish one,  
A Sweet Breath for a bad one,  
A Strong Stomach for a weak one,  
Rosy Cheeks for pale ones,

Would You Trade?

## Virginia Velvets

One at Night—  
O. K. Next Morning.

Keeps the stomach sweet, the liver active, cleanses the bowels, robs digestion  
of its terror, fits you for strong physical or mental labor.  
Would you trade twenty-five cents for health? That yellow look for  
a rosy hue? Then go to your druggist, trade 25c for a bottle of "Virginia  
Velvets." Take one tonight and you will be O. K. in the morning. Then if you  
could not get another bottle of "Virginia Velvets" for 25c, you would not trade  
your bottle for \$25.

This is the only remedy ever discovered for constipation and liver trou-  
bles that does not cause the nightly pill habit. Unlike all other remedies for  
constipation, the oftener you use "Virginia Velvets," the less you have to use.  
It is not necessary to go on using them forever and in increasing doses. It is  
the safest, surest, smoothest remedy for constipation ever discovered. No won-  
der it has been named "Velvet" by those who know. If you should be the  
one exception and not like them, you can take your bottle back to your drug-  
gist and he will refund your money. "Virginia Velvets" are guaranteed by the  
manufacturers.

ASK YOUR DRUGGIST FIRST. If he will not accommodate you, we will.  
Price 25c per bottle. Sent postpaid to any address on receipt of price.

## THE HUMAN BODY.

It is a Mass of Tiny Soapy Globules  
Called "Myelins."

Man is made of soap and not of dust,  
according to a statement recently de-  
livered before the Harvey society at  
the Academy of Medicine in New York  
city by Professor J. G. Adams.

Man is not entirely made of soap, of  
course, but there are scattered through  
his body an unknown number of tiny  
globules called "myelins," which are  
now believed to be a primitive form of  
true soap. It is the only pure type of  
soap on earth, and scientists say it  
may be that man was originally con-  
structed on a self-cleaning principle.  
All he had to do was to exercise his  
will power—think hard—and set his  
myriads of soap globules in motion.

The soapy nature of human beings  
has been discovered by means of the  
polarizing microscope. Professor Adam  
gave a history of the curious re-  
searches which led up to the great  
"find." Fifty years ago Virchow  
stumbled on the presence of myelin  
globules in "nearly every tissue of the  
body. They were plentiful in the brain.  
They dissolved in hot alcohol. Strong  
alkalis caused them to shrink. Vir-  
chow thought the myelins were albu-  
minous.

It was not until 1905 it was discover-  
ed they possessed peculiar refractive  
power. Finally Professor Lohlein of  
Carlsruhe made an elaborate study of  
the globules and showed under the po-  
larizing microscope they had queer  
cross markings and were in reality  
"liquid crystals," showing precisely  
the same markings as soap globules.  
This was considered sufficient to dem-  
onstrate their identity with soap.

The myelins, or soap globules, seem  
to contain a remarkable substance in-  
termediate between fluids and crys-  
tals.—New York World.

## The Three Peanut States.

Virginia, Tennessee and Georgia are  
the leading peanut states. In Virginia  
the white peanut and the small red  
peanut are the varieties chiefly pro-  
duced, while Georgia also largely pro-  
duces this small red nut. In Tennessee  
the white nut, which is larger than the  
red, and the larger variety of the red  
nut are raised. The chief peanut coun-  
ties are Humphreys, Perry, Hickman  
and Dickson, but the area of peanut  
cultivation has been enlarged in more  
recent years. Few peanuts are pro-  
duced in east or west Tennessee, but  
in the counties named they are the  
chief money crop of a large per cent of  
the farmers. The peanut has many  
names—goober, pludar, earth nut,  
ground nut, ground pea. Northern sol-  
diers called them goobers, and there  
was a well known song entitled "Grab-  
bing Goober Peas," which was a fa-  
vorite with troops "marching through  
Georgia."—Nashville American.

## Horses Cry For It.

Thirty horses per hour is the average  
work per currying machine done in  
many stables. Furthermore, the ani-  
mals thoroughly enjoy the massage, for  
this is virtually what the operation is,  
and when released from their stalls  
will often run over to the machine of  
their own accord. The look of perfect  
peace and contentment depicted on the  
face of the animal is an excellent tes-  
timonial in behalf of the grooming ma-  
chine.—Scientific American.

## Unusual.

She—She is always talking about her  
mince pies. Did you ever see anything  
unusual in them?  
He—Yes. I saw a shoe button in one  
once!—Yonkers Statesman.

## The Consequence.

"Is it true that Waldorf died poor?"  
"Yes. You see, he lost his health  
chasing after fortune and then lost his  
fortune chasing after health."—Lippin-  
cott's Magazine.
